**VARIETY AND HISTORY**

Cinsault is a red variety native to the south of France and is an essential part of the viticultural heritage of the Itata Valley. It arrived in Chile after the tragedy of the Chillán earthquake, which affected nearby agricultural areas, and due to which this variety was imported to serve as a complement to wines made with País grapes. Initially, Cinsault was planted in the cooler and more coastal areas of the Itata Valley, on the hills so characteristic of this area.

**TASTING NOTES**

Crazy Rows Cinsault is a wine with history. Bright red in color. High intensity of aromas, bright red fruit with spicy notes. In mouth is very juicy, fresh, round and honest wine that remembered the taste from the past. To drink now, but it will preserve their characteristics for at least 3 years.
